March 7, 2017

Dear Mr. Collins

On behalf of my staff, faculty and students, I want to thank you and your members for the support that you provide through the **We Read Together** program. Because of your support this program has impacted over 50 students with reading coaching and support. Our students eagerly anticipate the weekly engagement that your team provides. It is very refreshing to have dedicated role models for our students. Your focus on increasing reading proficiency through parental involvement assists us in preparing students to reach their full potential. I look forward to continuing our partnership next year and beyond. Please share our appreciation for your efforts with the entire membership of The 100 Black Men and especially the members of the South Metro chapter.

---

Sincerely

Thalise Perry  
Principal
